## ORDER

On October 29, 2018, plaintiffs filed an unopposed motion requesting permission to exceed the page limit when responding to defendant's omnibus motion to dismiss. Specifically, plaintiffs seek to file (1) an omnibus response, along with the plaintiffs in the related cases, containing no more than seventy-five pages and (2) an individual opposition brief of no more than fifteen pages. Plaintiffs in this case seek an order granting such permission to the plaintiffs in the related cases as well. The court **GRANTS IN PART** the motion solely to the extent that it pertains to plaintiffs in this case and **DENIES IN PART** the motion as it pertains to plaintiffs in the related cases. The plaintiffs in the related cases are free to file their own motions requesting permission to file additional pages or file supplemental opposition briefs.

**IT IS SO ORDERED.**
